

On February 18th, 2022, the online seminar "Manufacturing Tech Showcase by Foreign Affiliated Companies" was held with the aim of collaboration between foreign affiliated and local companies and creating chances for innovation. (The event was held by JETRO Yokohama, City of Yokohama, as well as cosponsored by IDEC Yokohama, Kanagawa Prefectural Government).

At this seminar, foreign affiliated companies operating in Yokohama introduced the latest developments in manufacturing technology. 34 people viewed the online seminar.

Viewers had opinions about the seminar, with some saying that "I learned that foreign affiliated companies with wonderful technology were making inroads in Japan" and "I want to ask details about the utilization of the introduced technology."

Foreign affiliated companies in Yokohama City who presented at the seminar

■ B&R Industrial Automation (Nishi-Ku, Yokohama)
